

CONDUCTOR AND BRAKEMAN KILLED NEAR LONDON

LONDON, Ont., July 28.—Conductor Cutting, of Bridgeburg, is dead; Brakeman C. Stone, of Bridgeburg, died in the hospital; and Engineer Wrigley and fireman A. Webb, both of Fort Erie, are badly hurt as a result of a rear-end collision one mile east of London, on the Grand Trunk, at 4 o'clock this morning.

The crash occurred in a dense fog which came after a terrific electrical storm. Fast freight No. 480, from Fort Erie to Detroit, in charge of Cutting, had reached the Sand Pitts and slowed up so as to avoid crashing into outgoing trains. Extra West-bound Freight No. 680, from Mimico to Sarnia, in charge of Gates, of Sarnia Tunnel, coming along behind at 45 miles an hour, crashed into the caboose, plowed through ten cars and derailed the locomotive.

Cutting died soon after being taken out. Stone was terribly crushed. The engineer and fireman were hurt about the head and body, but will recover. The accident is said to have been due to lack of protection furnished by the first train, a heavy mist prevailing at the time.

Ray Carbert, who was away to Edmonton for a trip last week has decided to enjoy the "white lights," so has accepted a position in the city for which he will leave town on Sunday next.

L. L. Larrabee who has been undergoing treatment at Montreal Hospital for some time past, was later operated on for appendicitis, and has now returned to his home in Cookshire, P.Q., on his high road to recovery.

The fair and exhibition of the Wainwright Agricultural Socy is to be held this year on September 11th and 12th. The prize lists are now in the hands of the printer.

Owing to an oversight, the south end of Bushey Head Lake was placed in the wrong range in a letter in our last issue, the piece of land in question being the east half of 35-44-7.

The Rev. Thos and Mrs. Murphy, who have been spending a pleasant holiday at Cooking Lake will be returning to town tomorrow. This gentleman will take both the Methodist and Presbyterian services for a month from Sunday next.

Councillor Matt Greer and Mrs. Greer, who have been visiting friends and relatives at half a dozen places in the east returned home on Sunday last and report a lovely time, although Matt says "you'd have to go some to beat this district yet."

CANADIAN CORPS OF CONSTRUCTION DOES GOOD WORK

LONDON, July 28.—That the Canadian Construction Corps has been doing splendid work all through the big push, and several times built railways within a thousand yards of where the fighting actually is taking place, is the news given me by an Imperial officer of the engineers. As fast as territory has been gained this battalion has run workable railways through the chaos made by British shells, bridged small streams and mine craters, and thus allowed medium sized guns and ammunition, and other supplies to be rushed up. The battalion has worked night and day under heavy shell fire and has completed construction of scores of miles of line, but the casualties have been remarkably light.

SPECIAL BULLETIN FROM COMMISSION OF CONSERVATION

A report just issued by the Commission of Conservation, "Conservation of Fish, Birds and Game," directs attention to the great value of these resources to Canada. The volume is a report of the proceedings of a conference of the Committees on Fisheries, Game and Fur-Bearing Animals of the Commission, and contains a fund of information regarding the present condition and the necessity for protection of Canada's fish, birds and mammals.

Canada is taking a prominent part in the international movement for the protection of wild life. A Migratory Bird Treaty between Canada and the United States is under consideration. Through the influence of the Commission of Conservation and other interests, bird reservations are being created, where the birds may find safe nesting and breeding places.

The fur-bearing animals of Northern and Western Canada are being rapidly exterminated. This is clearly shown by the present report. To secure their more adequate protection, the Commission is advocating the amendment of the Northwest Act to place responsibility for its administration upon the Dominion Parks Branch, which already protects the animals in Dominion National Parks.

The future of the fisheries of Canada is dealt with in an able manner by the highest authorities in this country. That they are of great present value is recognised, but there is also a potential value in our oceanic and inland waters which, upon development, would mean the creation of new industries. To meet this condition, the Commission is suggesting vocational training and simple demonstration stations for the fishermen, that they may take advantage of the most practical and modern methods of their calling.

The report is replete with illustrations applicable to the subject matter.

There are at least four judicial districts in Saskatchewan where the work of the sheriff will not be neglected. These districts are Mooseomin, Humboldt, Kindersley and Sec. The Gazette for June 30th announces that Mary Isabel Scott, Lulu May Wainwright, Florence May Johnston and Annie Caroline Johnston have been appointed deputy sheriffs for these respective districts. —Indian Head News.

Possibly one of the finest heads that ever ran wild in our local park has, after due treatment by the taxidermists, Wolfe and Hine, of Edmonton, now arrived here as a present to the town from the Department at Ottawa.

This beautiful shaggy head, which is valued at \$400 arrived on Monday, and after due deliberation the Council have decided that it is to receive a place of honor on the walls of the Council chamber, where it will indeed form a worthy memento of the largest buffalo park in the world—Wainwright Park.

Judging by the horn rings, this monster, whose head alone weighs very many pounds, was probably twenty years old when killed last fall by Alec Nesbitt, and when alive would probably have turned the seals at something over a ton.

It is indeed a splendid natural history specimen, and one of which our town may well be proud of for all the time.

TENNIS TOURNAMENT RUBBER

The second game in the tournament between the Edgerton Tennis Club and our local aggregation on Saturday last resulted in a win for the Wainwright members after some very fast and close play. This gives one win to each club, and the final is to be played on the home courts Thursday afternoon.

CANADIAN RED CROSS GIFT TO FRENCH ALLIES

The Canadian Red Cross is a very potent factor in bringing Canada into the sphere of international relations. Our Canadian Red Cross representatives are our ambassadors abroad, envoys charged with a peaceful and healing mission.

An interesting development along this line is the close cooperation which has been arranged between our Canadian Society and the French military hospitals. Col. Mogetts the commissioner in England in April, made a preliminary offer of 10,000 cases of Red Cross supplies, and the gift was heartily welcomed by the French Gov. which without official delays, made immediate arrangements for the receipt of this Canadian donation. Already 5400 cases have been delivered to the French Govt. from the Canadian Red Cross warehouse in London and its auxiliary depots in France.

Of these 5400 cases 2000 contained bandages and dressings. There were 1000 cases of sheets, 500 of socks, 300 of pyjamas. In fact there was a well arranged selection of all the articles required for the wounded in the hospitals.

This is only the beginning of Red Cross reciprocity between Canada and France, and should be a matter of pride to every Canadian that our country is so efficiently discharging its moral Red Cross obligation to our allies.

GERMAN CLASSES 1918 CALLED

ROTTERDAM, July 28.—The German classes of 1917 and 1918 will be called to the colors shortly, according to information received here. It is stated that the draft may be applied any day.

DANCE AT BARN RAISING

The home of Hugh Abernethy was the scene of enjoyment and merriment on Friday night last, the occasion being the dance given in the new barn built on his farm by contractor Laird.

Nearly a hundred couples were present and enjoyed to the full the fantasies of the tripshoeran art for practically the whole night, a dandy supper being served at midnight.

The barn which is 38x40 with a large left forms another splendid monument of industry on the Abernethy holdings.

Local Notes

G. D. Pope, of the Department of the Interior, who is touring the west, was in town on Monday last accompanied by Mrs. Pope and were taken for a drive to the Buffalo Park by H. W. McLeod.

The Rev. R. Swenerton left town this week for a change and a rest. He will return to his pulpit at the beginning of September.

Norm. Feuby with Mrs. Feuby and the children left on Sunday for their annual holiday. They will return from Chicago about Sept. 1st.

Adeline Rebekah Lodge will meet in their hall to-morrow night. As there will be initiation a full turn-out is hoped for.

Bud Simmerman is sure after the business with his auto livery, and has added another Chevrolet car to his fleet these days.

Bill Stuart is sure some erier when it comes to handling cattle, as was proved by the splendid prices he realised on some 75 head of stock at Irma which he sold last Saturday.

The cattle nuisance still continues on our streets both day and night, and it seems strange this is not stopped. What are by-laws for anyway?

The excursion to the Vermilion school of agriculture is being well attended this week, several of our farmers having registered their attendance and profiting thereby.

Property owners in town should get the weeds on their lots destroyed before ripening. There are dozens of vacant lots covered with a rank growth of weeds which demand attention and there must be attended to if we are to attain desirable results in beautifying.

Germans Lose Claim To S.S. "Appam," Owners Get Boat

NORFOLK, Va., July 29.—Federal Judge Waddell today decided the proceedings for possession of the captured British liner Appam in favor of the English owners and against the German prize crew which brought her here.

Forfeited Legal Claim. The court held that the German government lost all legal claim to the Appam, and her cargo as prizes of war when Lieut. Berg and his prize crew last February first brought them into the neutral waters of Hampton Roads with the intention of "laying up" the vessel indefinitely.

The court held further: "That the Prussian-American treaty of 1799 renewed in 1828 does not apply or control in the case so as to guarantee the prize crew asylum in United States waters."

"That the action of the German prize court in declaring the Appam a prize while the case was in litigation in the United States courts has no effect on the jurisdiction of the courts."

"That the jurisdiction of the United States court in the case is established by a long line of precedents including several by the supreme court."

Violated U. S. Neutrality. "The court's conclusion," the decision reads, "is that the manner of bringing the Appam into the waters of the United States as well as her presence in these waters, constitutes a violation of the neutrality of the United States; that she came in without bidding or permission; that she is here in violation of the laws that she is unable to leave for lack of a crew which she cannot provide or augment without further violation of neutrality; that in her present condition she is without a lawful right to be adreman in the waters; that, as between her captors and owners, to all practical intents and purposes, she must be treated as abandoned and stranded, upon our shores; and that her owners are entitled to possession of their property."

This court should award, irrespective of the court of the imperial government of the German empire; and that it will be so ordered."

TREASURER SAYS MONEY MUST BE COLLECTED QUICKLY

Seeing that the month of August is the last month of the year for the present books of the Patriotic Fund, and as it is very desirable that this organization starts their new year with a clean sheet at the beginning of September, the treasurer of the local fund—Mr. P. C. Haymes—wishes to point out that there are still a number of promises to be redeemed. Of the \$4,000 originally guaranteed there is still something like \$1,000 to be brought in this month, and he wishes all to bring or send in their contributions without delay, and in this way assist in the good work which is being done by this society.

CANADIAN TROOPS REACH ENGLAND IN SAFETY

OTTAWA, Ont., July 28.—It is officially announced through the Chief Censor's office that the following troops have arrived safely in England:

The 11th Canadian Mounted Rifles, British Columbia. The 98th Battalion, Ontario. The 93rd Battalion, Ontario. The 105th Battalion, Prince Edward Island.

The 106th Battalion, Nova Scotia. Cavalry artillery and infantry drafts and details.

Some of our local gardens now are a perfect picture of bloom, and well repay the labor expended upon their culture. Notably the floricultural display of the Cardell home is a sight worth seeing, and the sweet peas from this garden, of which we received a beautiful bunch this week, rank with the finest we have ever seen in any place.

BOARD OF TRADE GETTING HELP FOR FARMERS

Probably many of our farmers will be pleased to learn that the Board of Trade are making every effort to see that hired help is obtained wherever required, and in this connection the secretary reports having placed no less than fifteen men during the month of July.

A good start was made for August too, six more being placed on the first day. Anyone desiring assistance in this line would do well to see the secretary, A. E. Mills.

CANADA'S WOUNDED BEING CARED FOR BY RED CROSS

The official Canadian casualty list now contains over 25,000 names. This constitutes a large army of wounded whose treatment devolves upon the Canadian Medical Service assisted by the Red Cross.

Our medical units are to be found in every part of the war zone, France, England, Belgium and the Mediterranean. In the latter district, Canada has supplied 4,320 beds, and 1264 medical officers, nurses and orderlies. The total personnel in all the fields is 6,935.

At the beginning of the war an attempt was made to place our wounded in Canadian hospitals, but this was found impossible, and a wounded Canadian may be found in any one of the 1,500 active treatment hospitals throughout Great Britain.

Each unit in the field however is served by the Canadian Red Cross when called upon by the Canadian Medical Corps, and the Canadian soldier in the first stages of his wound, in his passage from the advanced dressing station to the field hospital and casualty clearing station is in Canadian hands. Again after discharge from active treatment hospitals, every Canadian must be sent to a Canadian Convalescent Hospital, such as Bearwood Park, at Buckingham, Berke, the Canadian Convalescent Hospital at Bromley, and the Kings Canadian Red Cross Hospital at Bushy Park.

Two of the best known active treatment hospitals are the Duchess of Connaught Red Cross Hospital at Taplow, one of the best equipped and most efficient hospitals in Europe, and the Queen Alexandra Hospital at Bexborough. In addition to these hospitals there are special Canadian Hospitals for the treatment of special conditions. These are the West Cliffe Canadian eye and ear hospital at Folkestone and the Greenhill special hospital which attends to cases of shell shock and injury to nerves. Blinded soldiers are sent to St. Dunstan's College for the Blind in Regents Park, London. Fortunately cases of this nature have been rare amongst the Canadian troops.

EDGERTON FAIR, AUG 18

The Prize Lists are now in the hands of the Secretary, W. H. Hallett, anyone can secure a copy by applying to him.

SUPPORT IS NATION WIDE FOR FIGHTING

The last records of shipments of Red Cross supplies from Dominion Headquarters in Toronto show large increases. Up to May 1st the total number of cases shipped from Canada was 63,742. The May total, the largest for any month to date, was 8,332 making a grand total of 72,174. The chief items in the month's shipments were 17,716 pairs of socks, and 63 cases of tobacco.

The shipments came from all over Canada. Vancouver contributed 56 cases and Victoria 115. The number passing through the Montreal warehouse was 1,029. A total of 612 cases came through Winnipeg. Hamilton contributed 279 cases, Regina 154, London 314, Cobalt 101, Calgary 172 and Halifax 200. It is thus evident that the Canadian Red Cross is receiving nation-wide support.

Dr and Mrs Little are camping at the Lake for a couple of weeks, as are also the Misses Limpert.

DISTRIBUTED FREE OF CHARGE

A new publication covering the land districts of Grande Prairie, Peace River and Grosvenor showing the total number of homesteads available for entry in each township through out the three districts has recently been issued by the Department of the Interior. One of the interesting features of the map is the up-to-date railway information also the particulars with respect to the various Dominion Land Agencies, Boundaries of Indian reserves, Forest reserves, etc., which have been included in the publication.

A copy of the map may be procured upon application to the Superintendent of Railway Lands, Department of the Interior, Ottawa.

LETTERS TO THE EDITOR PATRIOTIC RESOLUTION FRAMED

To the Editor

Dear Sir:—I beg to advise you that I am in receipt of a communication from the Central Committee for National Patriotic Organizations, of London, England, in which it is proposed that meetings be held throughout the Empire on the 4th of August in commemoration of the Second Anniversary of the war with Germany, and it is urged that the following Resolution be adopted at all meetings, this Resolution having been approved by the Prime Minister of Britain and the Colonial Secretary:—

RESOLVED, That on this second anniversary of the declaration of a righteous war, this meeting of the citizens of

records its indelible determination to continue to a victorious end the struggle in maintenance of those ideals of Liberty and Justice which are the common sacred cause of the "Allies."

My Government heartily endorses this project, and we trust that meetings may be held wherever possible throughout the Province of Alberta and the foregoing Resolution enthusiastically carried.

May I ask that you will advise me whether or not such a meeting will be held in your community.

Yours faithfully,
R. G. Brett,
Lieutenant-Governor.

THE FINAL STRUGGLE MUST BE DECISIVE

With irresistible and deliberate pressure the Allies are successfully tightening the ring of steel and fire that is destined to crush Germany, Austria, Turkey and Bulgaria so completely that they will eventually scream for peace. At no point on the battle front is anything happening that is merely spectacular. Each event chronicled constitutes only a link looped up in the chain that is being tightened, and at no point has the enemy shown any ability to offer a successful resistance.

On the east, west and south front the Allied cause is being pushed home with unswerving bravery, and a continuation of these drives are the only conclusion that can be arrived at. How long can this series of enemy reverses continue before despair will sweep through the hostile ranks and cause such a moral collapse as will hasten the coming of inevitable events to such an extent that the time when peace will be sued for can be clearly seen? No man can tell—but the opinions of the most conservative and reliable observers indicate that the last phase of the war will be the shortest one, and that we are now making such progress as will bring our enemies to their knees within possibly the next year.

This hopeful outlook, however, ought not to be regarded as in any way justifying a modification of recruiting enthusiasm in this country. Teutonic collapse, or Turkish surrender, do not mean immediate peace, or anything like that. When Germany recognises that she is hopelessly beaten, Germany will not necessarily accept the hard terms which will have to be exacted by the victory in order that security may be established, because the acceptance of those terms by Germany and Austria would be a sentence of death passed by the governments of those unhappy countries upon themselves, and those governments know that if they accept the terms which will have to be exacted by the Allies, they would have to face their own people when these people would be in a mood where nothing will satisfy them but the most complete revenge upon those who have betrayed them to their destruction for the sole purpose of personal aggrandisement.

We have a long way yet to go. The good athlete regards the contest still open until the referee's decision. Canada ought to prove herself as good an athlete as England or France. Our young men are still as badly needed as ever, and they should rally to the colors now for the one final supreme effort that it is necessary to make in order that the victory which is at last in sight may be brought about with a rush and a dash that will make it unquestionably final.

CANADIAN RED CROSS ACTIVE IN FRANCE

THE ACTIVITY of the Canadian Red Cross in France is fully in keeping with the size and importance of this country. The society is to the fullest extent carrying out the purpose of its organization and is rendering immense relief services not only to the Canadian and British wounded but also to the French.

A good idea of the magnitude of this assistance can be gained from a list of two months supplies sent out from the warehouse in Boulogne which is in the charge of the assistant commissioner Capt. Blaylock.

To field and base hospitals there were sent 647 cases of bandages of thirteen varieties. There were 827 cases of dressings and 84 of hospital pads, 6928 pillow cases, 2964 sheets, 1423 bed, dressing and pneumonia jackets, 4957 pyjamas, 41,150 shirts and 6391 pairs of socks. It must be remembered that this is only a partial statement of 2 months shipments from out of many Canadian Red Cross supply depots.

Ample provision is made for the comfort and recreation of the convalescent soldier. All manner of games are sent to the hospitals. To one hospital the Boulogne depot sent a complete cinema outfit, to another a piano, and to others, gramophones with a large assortment of records. It shipped also in the period mentioned, 129,000 cigarettes and 597 pipes. The Red Cross sees to it that the wounded do not lack for anything in any way necessary to comfort, such as shaving outfits and toilet articles of every description.

In connection with the upkeep of numerous hospitals and the repair of large number of ambulances, the Red Cross store houses issues a great variety of articles, such as carpenter's tools and automobile accessories. Indeed the scope of Red Cross enterprise is amazing, and the ability of the Canadian Society to attend to all the intricate details of such a complex organization should be a matter of pride to every Canadian.

FREE TRADE AS IN ENGLAND

IT HAS BEEN a favorite pastime among fiscal theorists in Canada during the past few years to refer to "free trade as they have it in England." As painted by Canadian advocates, Britain's free trade has been a kind of which should have been emulated in this country; and even at this time, after a war has shown the fallacy of the policy of the past and the impossibility of it in the future, there are some men in Western Canada who still persist in forcing it upon us.

It was a common delusion in Britain until very recently that the British Isles were reaping untold blessings from its fiscal policy. But the war has opened the eyes of Britons to what was the real situation. In fact, it has been asserted that, if Germany had been content to continue the peaceful process, and had not attempted to cripple Britain with one blow of its military machine, it would have only been a matter of a few years until the Teutons had accomplished, through their own commercial system, and with the aid of Britain's trade policy,

what they will fail to do with the combined strength of their armies.

It would probably require a pretty large sized volume to recite just what Britain suffered at the hands of Germany because of the open door to the former's markets. The half, indeed, will never be known. But that the Englishmen have begun to appreciate just what British free trade has meant is quite evident from present newspaper comment, much of it by those newspapers who up to a few months ago were its strongest supporters.

The London Daily Mail makes a very pointed reference in a recent issue to what the free British market meant to the Germans, and how the latter used their advantage. "The Germans had the free use of our markets before the war," says the Mail "and if they had been content with picking our pockets they might have continued to grow rich at our expense. But they tried to cut our throats as well. They used their commercial power in the most treacherous way. Their merchants were spies; their agents were mostly enrolled in the vast secret service organization which overruns the world. To give them again the run of Great Britain and the Empire would mean ruin—and more, it would outrage the sentiment of the people."

Surely no Canadian could conscientiously advocate such a policy for this country. And surely any appeal to the people of Canada "for free trade as they had it in England" will be met with a scant response from a people who should have some little conception of their own internal interests.

PREMIER BORDEN GETS RELIEVED NEW SECRETARY

OTTAWA, July 31.—In order that the Prime Minister may be relieved of part of the various responsibilities which have developed upon him through the war, authorization has been given the governor-in-council for the appointment of a parliamentary under-secretary of state for external affairs. Those duties will be defined by the government from time to time, and who will undertake such duties in the absence of the premier.

No appointment has yet been made, but a senator or a member of parliament will be appointed at a later date. The first appointment of this kind was that of F. B. McCord to the position of parliamentary secretary for militia and defense. It is possible that the system of parliamentary secretaries will be extended further even than this.

WHIRLPOOL RAPIDS MAY BE MEASURED BY NEW DEVICE

NIAGARA FALLS, Ont., July 29.—The depth of the whirlpool rapids in the Niagara river, just above the falls, may become known. Engineers propose to take a series of soundings from a passenger aero-car line which has been constructed 200 feet above the water by the Niagara-Spanish Aero-car company. The engineers will use a weight of 500 pounds, or heavier if necessary.

It has been estimated by many that the depth is anywhere between 250 and 1,000 feet. Because no boat can live in the rapids it has been impossible to verify these estimates.

BOTH HEIRS ARE DEAD

Second Son of Lord and Lady Stratheden Killed.

LONDON, July 29.—Lord and Lady Stratheden and Campbell have received news of the death of their eldest son, Captain John H. Campbell, of the Coldstream Guards, and also of the latter's eldest son, Lieut. Donald Campbell, Captain Campbell, who has been missing since January, 1915, is now reported to have been killed in action, and Lieutenant Campbell, who also was in the Coldstream Guards, fell in action July 18.

Lord Stratheden and Campbell is the third peer to lose two heirs in the war, the others being Lord Desborough and Lord St. David, both of whom had two sons killed.

BOYCOTT SWISS FIRMS

Strong Protest Made Against the Teuton Methods

LAUSANNE, Switzerland, July 28. (via Paris).—A strong protest against a blacklist of Swiss firms by Germany and Austria is made by the Lausanne Gazette. The Gazette says that black list is now being drawn up by Capt. Schmitz at Bern under the direction of the commercial attaches of the German and Austrian legations.

According to the paper Swiss firms known or suspected of doing business with the Allies are not only deprived of coal and other German products, but are boycotted by other Swiss firms. The boycott is enforced by threats that any firm will be black-listed which deals with concerns objected to by Capt. Schmitz.

French Want Neutral Probe Into Treatment of Civilians

PARIS, July 31.—Premier Briand has addressed to J. J. Jusserand, the French ambassador at Washington, and to the other French representatives in neutral countries messages directing them to present to the governments to which they are respectively appointed a note reading as follows:

"I ask you to call the attention of the government to which you are a representative to the treatment which the population of Lille, Roubaix and Tournai have been subjected by the German authorities."

"The French government in the presence of revealed facts invokes the application of The Hague Convention concerning laws and customs of conducting land warfare, to the end that Germany be held responsible for violation of the rules by its armed forces."

WASHINGTON, July 29.—By a vote of 40 to 10 the senate adopted a resolution requesting President Wilson to transmit to the British government an expression of hope that it would exercise clemency in the treatment of Irish political prisoners.

By its action the senate overruled the report of a majority of the foreign relations committee and followed a course outlined in a minority report made by Chairman Stone and Senators O'Gorman and Pittman.

BRUCE WALKER REPORTS ON WESTERN CROPS

OTTAWA, July 29.—J. Bruce Walker has reported to J. D. Scott conditions of the crop in western Canada as follows:

Weather and crop reports week ending today's date:

"In Manitoba, weather has been cooler with local showers all over province. Cooler weather has helped to hasten straw, which was a little soft. Wheat all headed out, with all good-sized heads and filling well. Average height three feet. Other grains making excellent progress.

"In Saskatchewan, weather has been hot with slight wind and local showers. Wheat is 80 per cent. headed out. Expected that cutting will commence about same time as last year.

"In Alberta, weather conditions have been most favorable and all crops are making satisfactory progress.

"Reports of black rust indicate serious losses in crop in North and South Dakota, and several instances of black rust have been reported in southern Manitoba close to the boundary line. These, however, were isolated cases and rust is not in evidence anywhere else in the west."

BRITISH LEAGUE TO PLACE WILHELM ON MURDER TRIAL

LONDON, July 31.—The Liverpool Express says that a league of Britons has been established to secure the trial and punishment of the German emperor and other highly placed Germans "for the murder of Capt. Fryatt and other victims."

The members of the league, according to the paper, are pledged to vote against any government which refuses to make an indispensable condition of peace that such tribute be established and that the emperor and others, if convicted, shall be executed.

The Weekly Dispatch says that a mob at Rotterdam on Saturday paraded the streets demonstrating against the Germans on account of the execution of Capt. Fryatt. They broke the windows in the German consulate.

Lieut. G. R. McCubbin Vanquished Noted Flyer

LONDON, July 28.—Lieut. G. R. McCubbin, of the Royal Flying Corps, who vanquished Lieut. Immelmann, the German airman, has received the distinguished service order.

This is the first announcement of the name of the vanquisher of Immelmann, who had been credited with bringing down fifteen aeroplanes. First Lieut. Immelmann, for his aviation exploits, had received the highest military decoration, L'Ordre Pour le Merite.

On the evening of June 21 he was fighting two aeroplanes at the same time, according to German witnesses, one of which he brought down. The successful officer of the air service has now been made a companion of the distinguished service order.

Although places through the west are reporting a shortage of binder twine for handling this season's crop, the farmers of this district will be well provided for. Bisson's advt. on another page announces that they are fully stocked with a large amount of the very best.

If the party or parties who are conducting a systematic series of marauding at the tent of Messrs. Bothwell and Gaunt will come and live with these gentlemen they will save themselves quite a lot of trouble in making a clean getaway. They will be warmly welcomed if properly introduced!
